

Sir I gave a Copy of the within Draught with a number of others in a bundle
to Jacob Barnitz (to the best of my remembrance) to send to the Office but
they have miscarried by some means unknown - The Survey was Original-
ly made by Mr. Lease one of Mr. Matthews Deputies - The Black Lines
Represent the Lines Run, but the Courses being wrong ^{by mistake} & Returned
by William Matthews into the Office - on Surveying an adjoining Tract
I discovered the Error which may clearly be seen as protracted dotted Lines
shew as the situation is changed to the adjoining Lands - The Sur-
vey was made by Kitcher of an Application in right of Jacob Canegal
King as the Return in the Office will shew

To John Lohens Esq. Surveyor General Moses A. O'Keefe Esq.
