Mr. Laporte

Claysville Apr. 21<sup>st</sup> 1849

Dear Sir:-

I was not right in part of the statement I made to you in relation to the Stroud land It is this I stated that Joseph Stroud had lived on the land untill his death now it appears when I am Correctly informed, that said Stroud had moved off the land and the building thrown down and hauled off, and the only building on the land now, is one built by James Stroud the present applicant, this he has rented out together with part of the land and claims possession of the land If the law will at all make the land to James Stroud he ought to have it I think from the fact that White is worth 40 or 50 thousand dollars & Stroud is a poor man. Stroud wishes you to write wheather you will grant him a patten and if so what the exact amount of the cost will be.

Address

Yours

T. C. Noble
