

At the Request of Doct. W. M. Whaine I certify that several months ago J. M. Whaine applied to me to know whether Dan Kennedy late Adjutant was entitled to the donation of land from Penna. It was at a time when I was much engaged and I think I answered him that I believed the ~~land~~ Dan Kennedy was not entitled, however if his name was already given by me in a general list which was with the Committee, but it appeared to me at that time that the doctor wanted to draw his land, and he probably did not then apply to the Committee on account of the information to him which was from memory and erroneous for it appears if Kennedy was really entitled to Donation land from Penna.
