

Friend Gerrit Pattenhouse James Moon informs  
me that he is going to Lancaster this winter.  
I inform that I sometime ago applied for  
James Moon Patent for 200 acres of Donation  
Land in his name, there need no Order from  
me for it, they may apply at the Commissioners  
Office for the same, I saw the Patent was made  
out for him, and there <sup>was</sup> two others applied for the  
said Land, which prevented it from being signed.  
I took down Jas Moons Qualification and left  
it in the Office, The Deputy Secretary or  
Clarks, will inform thee what is necessary further  
to procure his patent.

Jas Moon belonged of Pennsylvania right  
to the first Regiment, Col. Barron Capt  
Wentworths Company.

I am & remain thy Friend

John Thomas
