I hereby certify that it does not appear from the Books or documents in my Office that the above described land has been otherwise appropriated, (it being the principal part of what is marked on Alden's draft as No 6 W. Wilson)

Note many of the tracts of land marked on Maj Roger Alden's draft, as surveyed to various persons, have within the last twenty years been settled by actual settlers, who have in some instances made other lines, and in some cases divided a tract into two tracts. and it often happens that they are not both ready at the same time to procure their titles.
