

you will find from the statement on James Murray's Return
that the House under which the application was made was put
up in April last. altes de Murray claims by virtue of an Impt.
made in 1793. the cleared land on which the house stand is about
3/4 of an acre. See his Return. The above statement contains all
the facts which have come to my knowledge respecting the claims
of the parties concerned - the parties will most likely be before the
Courts
