Before the Secretary and Surveyor General 25th of April 1769.

John Richey
Agt
James Savage

Agreed by the parties that this dispute be left to the Determination of William Smith Esqr William Matthews and William Cammell or any two of them. at the same time agreed that any Land allowed to John Richey shall not go towards James Savages Plantation further than the Old Lines run for Alexr McCandless by Thomas Armor

A true copy

p. David Kennedy for
James Galphin Deputy

November 20th 1769

In pursuance of the above order we all three Met on the Spot and being Shewed one of the Cornertrees of McCandless's Survey did Carefully Examine the Lines there of and did not pass'd James Savages place tho we Could not find any more Even Marked any of any account (occasioned as we were informed by there being None present at McCandless's Survey but the Surveyor Wm Candless and one other Person to help McCandless Carry the Chain) but when we Came to the North Fifty four degrees West line we found it was marked in Some places along and we are of the opinion that as Richey did purchase to that line and has made Some Improvements thereon that Savage have none of the Land within those lines. Nor that Richey have any land without them lines. and accordingly on the Next day (to wit) the 21st of November 1769 James Savages Land was Surveyed according to the above Judgement agreable to the Draught herewith Sent. and we do think that Richey has no right to any part of the Land Surveyed to Savage by his purchase from McCandless. all which is Submitted to His Honour the Governor
