

(Endorsement on Back)
 Northumberland County
 The Hon^{ble} Proprietaries
 Manor at Muncy Divided

17

Pursuant to an Order of the Board of Property to me directed
 Bearing date the 1st day of April 1776, I have caused the
 Proprietaries Manor of Muncy to be divided as
 above set forth and Described.

A Draught of the Honourable the Proprietaries Manor at Muncy in the County of Northumberland with the Divisions therein made (as above represented) Divided the Fifteenth
 Day of May 1776. In pursuance of His Honour the Governors Order dated the First day of April 1776.

- Viz:
- N^o 1. Containing Three hundred Acres & 139 Perches and an allowance of Six P^{er} Cent &c. Settled on and Improved by Mordecai M^{rs} Minney.
 - N^o 2. Containing Two hundred and ninety nine Acres & an half and Allowance as aforesaid, Settled on and Improved by Peter Smith and Paulus Sheep
 - N^o 3. Containing Three hundred Acres & 76 Perches & Allowance as aforesaid. Settled on and Improved by John Brady
 - N^o 4. Containing Three hundred Acres & 61 Perches & allowance &c. Settled on and Improved by Caleb Knapp.
 - N^o 5. Containing Three hundred & one Acres & 105 Perches & allowance &c. Settled on and Improved by John Scudder, who is dissatisfied with the manner in which it is laid out, alleging there is not Timber sufficient on it for Fencing &c. and desires his Lot may be laid out agreeable to the Red Lines which contains Two hundred and fifty four Acres & 74 Perches & allowance &c. which would greatly lessen the value of the Lot Brady Possesses. The S 30 E Line runs thro' a part of Brady's improvements & takes near all the Rail Timber from Brady's Lot that is on the South side of the Glade Run, so that upon the whole we judge it most Convenient & to the General Advantage of the Plantations that the Black Line should remain as the Boundary between Brady & Scudder. We have therefore laid down Scudders complaint that it may be judged of by His Honour the Governor.
- It is by no means convenient that any of the Plantations should cross the Creek as the Banks on the North side are high and the Creek in time of Freshes flows so very considerable that it is thereby rendered Impassable for several Days. It is Settled on and Improved by Jerame Vanest and John Young as described in the Draught &c. in Youngs Improvement thirty Acres and in Vanests Sixty Seven Acres.
