Note. I have no doubt but that the above two Warrants were granted to the same person. You will observe that there
is 1 acre & 153 perches of the last Survey that was not included in the first. The Courses & distances on the above I copied from
Certified copies of the Surveys. I would have connected Jeremiah Robinett's new Survey with these but the whole would not form
a closing survey. being at different date & one returned according to the true. The other the Magnetic bearings.

The different Coloured lines represent the different Surveys D. Sams
