

No. 2 five or six trees dedned and two or three trees cut down nigh the head of a spring in the year 1774 and said to be sold to William Brotherton it appears that Wm. Brotherton intended to join Geo. Hutchinson but James Walkers survey lies between the above survey and George Hutchinsons

I have Viewed the above described land and did not see nor hear of any other improvements on it then what I have mentioned neither Mr. Brotherton nor Mr. Thompson were present with me the statement I have made were from my own View and the information of the neighbours.

John Moore D.S.
