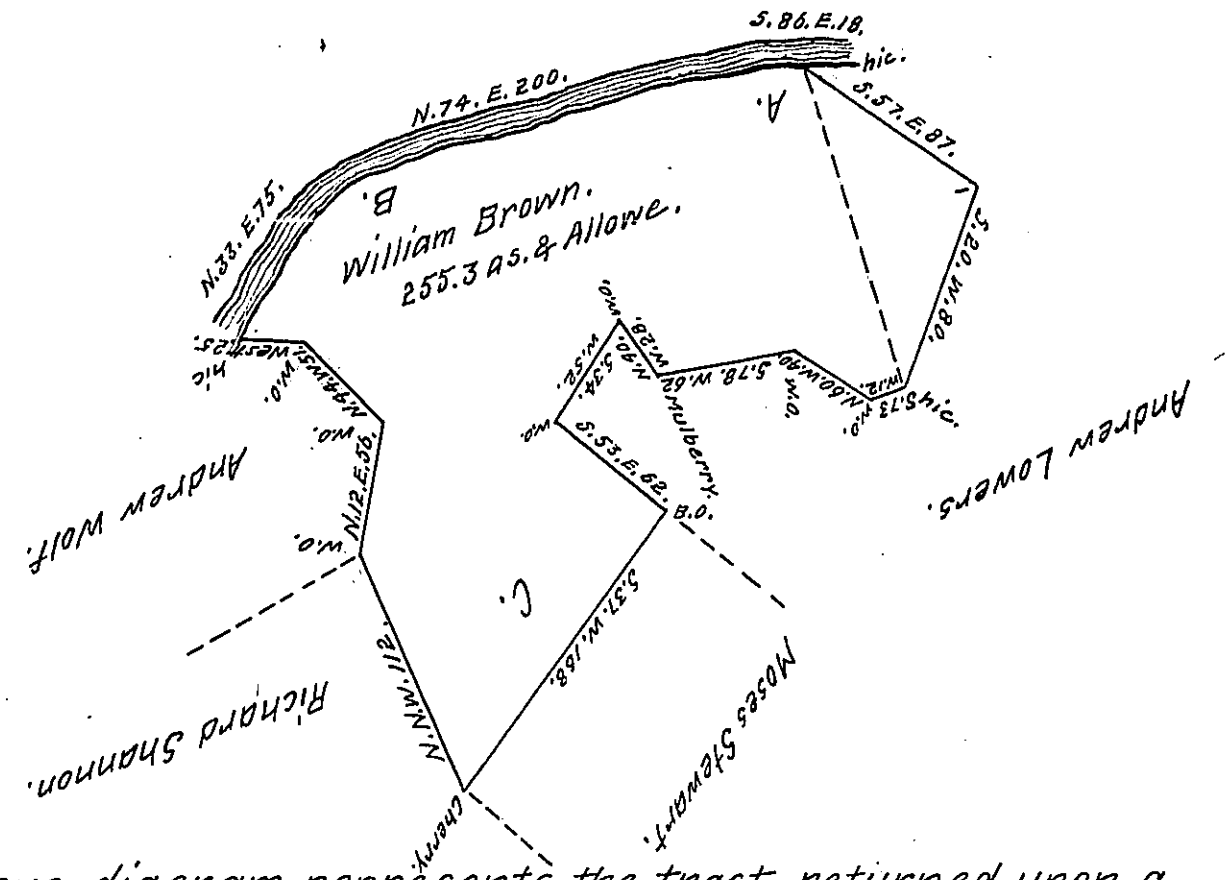
FORM NO 1.



The above diagram represents the tract returned upon a Location to William Brown the 3d. April, 1769. No. 1377. the date of whose Survey I have not in my possession.

That part represented by the dotted line and the letters A. B & C. shows the interference of Jonathan Muckmorewith the above, A return whereof is herewith enclosed.

It appears from the old field work in my office that a Survey was made to Jonathan Muckmoreon the 6th. of June 1769. on the South Side of Blacklick Creek by Order of the 3d. April, 1769. No. 2220 but no other document respecting it are to be found. Upon re-traceing the Survey according to the notes I found it to include the farm of Micheal Campbell whose father, Charles Campbell Esq. holds in right of a Survey to William Brown as above described. The courses and distances of Muckmore's Survey are the same as that of Brown except as to the dotted line and a small variation with regard to the length of one or two lines. Micheal Campbell is in the occupancy of this tract.

To Gabriel Heister Esq.
Surveyor General.

John Taylor. D. S.
