

150017 – Warren L. Miller Elementary School

Army Corps of Engineers Dike

*Site Plan of Warren L. Miller Elementary School*

*Floor Plan of Warren L. Miller Elementary*

150017; Warren L. Miller Elementary School. This school is located on Dorsett Drive, Mansfield, Pennsylvania, in Mansfield Borough, Tioga County. It is part of the Southern Tioga School District. The 1965 school building is located at the end of a long driveway off of Dorsett Drive, set back from the roadway behind residences. This driveway ends at the school in a circular driveway surrounding a grass island with flagpole. The school is oriented towards the circular driveway. A paved parking lot is located east and southeast of the building. The western edge of the property abuts an Army Corps of Engineers dike along the Tioga River. Between the school and the dike are a pavilion, a playground with equipment dating to 2006, and an asphalt play area. South of the school are another recent playground with equipment and a paved play area. Much of the property is surrounded by fencing. Baseball fields owned by the school district are located north of the elementary school. Additional sports fields extend northward, ending at a different school building. A driveway connects the two schools on the campus.

The 1965 building is arranged in a T-plan. The main entrance is located in the short leg, which also contains the cafeteria, gymnasium/auditorium, and offices. Perpendicular to this one-story section is a two-story wing with a linear interior hallway flanked primarily by classrooms. Shortly after the school was dedicated in 1967, additions were constructed. These include a music room, and eight classrooms at the southern end of the long wing, a library at the north end of the long wing, and the cafeteria at east end of the leg. Prior to the construction of the cafeteria, the gymnasium functioned as an all-purpose room. The one-to-two-story building is a steel structure with porcelain enameled steel and brick curtain walls. The building sits on a concrete foundation. Rubber membrane covers the flat roof. The school has a brick interior chimney. The main entrance contains multiple steel-frame glass doors surrounded by fixed windows. A long one-story steel portico with a flat roof shelters the entrance and extends to the sidewalk in front of the school. The building is lit by picture and awning or hopper windows.

The entryway features terrazzo floor tiles, enameled brick walls, acoustic ceiling tiles, fluorescent lights, and a display case. The gymnasium features a rubber floor, concrete-block walls, acoustic ceiling tiles, fluorescent lights, and wall suspended basketball hoops. A proscenium stage is located at the west end of the gym. The proscenium is embellished by brightly colored glazed tiles. The cafeteria features terrazzo floor tiles, concrete-block walls, acoustic ceiling tiles, and fluorescent lights. The library is carpeted. It has brick and plaster walls, acoustic ceiling tiles, and fluorescent lights. An art room features a tiled floor and kiln. Specialized classrooms include, or have included, a music room, art room, and kindergarten.

The Warren L. Miller Elementary School was constructed in 1965 by the Mansfield Joint School System. Shortly before the school opened in September 1966, this school system became part of the Southern Tioga School District. The building was named in honor of Warren L. Miller. He served the local school community for over forty years before retiring in 1964 and was active in numerous local, state, and national educational associations. The school was dedicated in May 1967. Multiple small additions were

constructed the following year, including the cafeteria, library, music room, and eight classrooms.
