
ARCHAEOLOGICAL PROFESSIONALS WORKING IN PENNSYLVANIA

This list contains consultants who are available for archaeological services in Pennsylvania. The list consists of those organizations who have submitted credentials to the Pennsylvania Historical and Museum Commission and have agreed to abide by our current [Guidelines for Archaeological Investigations](#). The persons within each organization that meet the minimum federal requirements for a principal investigator (PI) as defined in [The Secretary of the Interior's Standards](#) are listed and their specialization indicated. The noted specializations include prehistoric archaeologist (P), historic archaeologist (H), industrial archaeologist (I), underwater archaeologist (U), and geomorphologist (G).

This list is provided as a service to the public and in no way implies endorsement of any company. Inclusion on the list is voluntary and is not required to conduct field work in Pennsylvania. Any investigator who meets the Secretary of the Interior's Standards may submit reports to this office. We suggest that prospective clients ask for references before contracting for professional services.

The list is arranged alphabetically by organization name or by last name of individual if there is no organization name given. In order to facilitate finding a consultant in your area, a separate list of organizations sorted by the first two digits of the zipcode is also available on our website.

If you are a qualified archaeologist and would like to be included on this list, please see our website for the [procedures for listing](#).
