

South Boundary of Depot Lot

Gen A L Rounfort
Supt of C&D RR
Dr Sir

I send You a draft of the lot on which You gave order to have an Embankment made in order to prevent accidents from locomotives or their trains running off at the switches. The Lot is now of little value as it is but a Ravine but if the State would purchase it, it might be filled with the ground which must be removed from the Depot Lot which ground if put in the Ravine would make a good & valuable Lot and I think the Commonwealth would profit by the purchase.

Rail Road in front of new Depot
