N. B. there is a survey Returned into the Surv^r. Genl. Office bearing date the 2^d day of October 1795 which extends Ninety Perches below the Hickory along a very High & Rugged Ledge of Rocks & hills since that survey has been Returned I have been on the Land and find the Hickory marked on the Draft to be marked Regularly with the marks used by Chas. Stewart Esq^r. Depy Surv^r. & his assistants, this said tree appears to me to be marked at least twenty years ago & that it is my opinion the Hickory was the furthest Geo. Weeds warrant ever intend to come, as the ~~Area~~ Bottom its self contains near Eighteen Acres
