Peter Zimmerman produced a warrant for Jacob Frack dated the 9th April 1752 for 25 acres on which the within Draft was returned in the Office the 25 May 1808. He now brings me a Warrant in the name of Jacob Frahe dated 3d September 1750 for 100a saying the other Warrant did not correspond with his conveyances. it is impossible for me to tell on which of those two warrants the land originally surveyed by James Scull as his Drafts were never in my possession;-

This Survey to be filed in lieu of the former survey mentioned in this note. And the land to be patented on the Warrant in the name of Jacob Frach dated 3d Septr 1750

To Andrew Porter Esqr
Surveyor General.
