

Two men who call them selves sons to John Organ - some a Son in Law of mine
I named John and Matthew having applied to me to testify that they are
sons to the said John Organ.

That they and the sons of John Organ. It is not at the least
that either have answered any question. I have asked them, and made
it appear by other corroborating circumstances that they are such as
as they were children when they lived on my land I cannot say for
certain that they are the sons of John Organ.

The said News, 1786
To whom it may concern
