BLUBAKER COAL CO. PAPERS, 1888-1942

In the fall of 1887, Col. Jackson Levi Spangler, of Bellefonte, became acquainted (through several gentlemen who had the control of a number of options upon coal lands in the northwestern corner of Cambria county) with the marvelous mineral wealth of this region. He visited this locality and was impressed with its extent and value. Col. Spangler enlisted the interests of others to induce an effort to secure control of a large body of coal in this neighborhood. As a result, the Blubaker Coal Co. was formed, of which he may be said to be the original founder. Others united with him and the company became the owner of some 12,000 acres of the best land in this region. Col. Spangler continued as a director of the Blubaker Coal Co. since its organization, and was one of the prominent stockholders.
