### Record Groups | Pennsylvania State Archives

Archival records created by the General Assembly, State Judicial System, Executive Branch departments, boards and commissions, county and municipal governments, and school districts are maintained and described as Record Groups.

The following is a list of government records currently available for research at the Pennsylvania State Archives. The records are arranged and listed by series within record groups. Though most of the records groups correspond to Executive Branch department-level agencies of State Government, groups were also created to describe the archives of the Provincial and Revolutionary governments, the General Assembly, Supreme and Superior Courts, and County and Municipal governments.

The record series are listed under the agency of origin or under the governmental unit which may have inherited the records and functions of a predecessor agency. Records are often further classified by subgroups that correspond to administrative units of the agency or defunct departments or commissions whose records and functions were transferred to that agency. Sometimes the records of a subgroup have been further divided according to division or section. In a few instances, series within a record group have been arranged according to subject matter. Record series are listed in alphabetical order within the groups or subject headings. It should be noted that many of the administrative units within the individual departments have undergone frequent reorganization and changes in name. Consequently, some series are listed under a particular bureau or division that may have merely transferred the records to the custody of the State Archives. Preceding the series listing for each record group is a brief administrative history.

For purposes of administrative control, local public records transferred to the State Archives are accessioned into three record groups, **Record Group 47- Records of County Governments, Records Group 48- Records of Municipal Governments, and Record Group 55- Records of School Districts.**

## State Art Commission | Pennsylvania State Archives

The State Art Commission was created in 1919 by P.L. 103. It consisted of five citizens appointed by the Governor to examine and approve or disapprove the design or location of a wide variety of public structures, including monuments, memorials and buildings acquired by the Commonwealth. The Commission also reviewed plans for structures funded by the State Treasury or by any political subdivision, as well as those for which the site was furnished either by the Commonwealth or by any State or local public place without Commission approval. Exceptions to the Commission's jurisdiction were cities of the first and second class. The Commission was disbanded in 1987.

Information provided includes names of members present, submission numbers, names and resolutions relating to the submissions, actions taken and discussions about the policies and procedures of the Commission.

**Biographical Note**

The Department of General Services is the central construction, purchasing, publishing, and maintenance agency for the Commonwealth. This Department was created by Act 45 of 1975 that combined the duties of the Department of Property and Supplies and the General State Authority (GSA). Established by the Act of April 9, 1929 (P.L. 477), the Department of Property and Supplies was the service and purchasing agency for all other state departments, agencies, boards, commissions, and other divisions of state government. The General State Authority was created by the Act of March 31, 1949 (P.L. 372). (An earlier GSA created by the Act of June 28, 1935, P.L. 452 was subsequently repealed by the Act of May 18, 1945, P.L. 641). The purpose of the Authority under the 1949 Act was to construct, improve, equip, furnish, maintain, acquire, and operate a wide range of public works, including all state buildings, institutions, airports, state-aided schools, and municipal exhibition halls. Prior to 1968, GSA projects were financed by the sale of General State Authority Bonds. The Act of July 22, 1975 (No. 45) that created the Department of General Services on October 20, 1975 transferred to the new Department the powers and duties of the former Department of Property and Supplies and the General State Authority with the exception that the Authority continued to function as an independent public corporation until the outstanding debt from the bond proceeds spent is retired.

## Earle, George Howard, III (1890-1974) | Pennsylvania State Archives

**Name:** Earle, George Howard, III (1890-1974)

**Historical Note:** George H. Earle III served as Democratic Governor of Pennsylvania from 1935-1939. Born in Devon, Chester County, Pennsylvania on December 5, 1890, Earle attended Harvard University and served as a private in the Second Pennsylvania Infantry under General John J. Pershing during the Mexican Border Campaign in 1916. Earle enlisted in the United States Navy during World War I and after the war distinguished himself in a number of businesses in Philadelphia, including the Flamingo Sugar Mills (which he founded) and the Pennsylvania Sugar Company. During the 1930s he entered politics, supporting Franklin Roosevelt in the 1932 presidential election. His support won him appointment as United States Minister Plenipotentiary to the Republic of Austria in 1932, which post he resigned to run for Governor of Pennsylvania in 1934. During his term as governor, Earle obtained passage of the Equal Rights Act in 1935, prohibiting racial discrimination in hotels, restaurants, and places of amusement. After an unsuccessful bid for the United States Senate in 1938, he served as United States Minister to Bulgaria in 1940, Assistant Naval Attache to Turkey, and Assistant Governor of Samoa from 1940 to 1945. He returned to private life in 1945 and died on December 3, 1974.
