

240-244.		Costs of oil, tallow, and tar
248.	" "	ropes (hemp and wire)
252-257		
266.	" "	iron, steel, lead, copper, and castings
258-262.	" "	freights and hauling
300.	" "	blacksmith work
350-354.	" "	plank, boards, timber, and lumber
400-420.	" "	miscellaneous motive power

Superintendents and supervisors associated with the journal are Francis R. West, John Ross, Wm. S. Calohan, and James Bryden.

Page 224 shows prominently the names of companies selling locomotive engines to the railroad: Norris Brothers, Matthias W. Baldwin, and the Pennsylvania Railroad.

On page 248, the name of John A. Roebling, inventor and manufacturer of wire rope, is eminent, but it accompanies the names of his hemp rope competitors.

W2-f.23. WESTERN DIVISION - Contracts:
Sections, Western Reservoir, etc.

The title here is fairly inadequate and misleading: contracts within the volume embrace also fence, roads, and the Allegheny Feeder; the section contracts involve many different types of work and structure.
