

The volume is indexed according to the names of contractors.

11- 97. Contracts for the building of farm bridges, road bridges, towing path bridges, and bridges over streams.

W2-h. 5. FRENCH CREEK DIVISION - Contracts:  
Aqueducts, waste weirs,  
dams, etc.

Here the title is inadequate: the volume contains also contracts for culverts (items 14-32), for waste weirs (items 4-13), and for repairs (items 53-56 and 68-119).

1- 3. Contracts and specifications in manuscript form for an aqueduct across Watson's Run and, particularly, for the aqueduct which should carry the French Creek Feeder Line across French Creek, that is, from the east bank of the creek, which it descended, to the west bank, beyond which its water was to be emptied into Conneaut Lake.

32- 52. Contracts for dams

57- 67. Also contracts for dams

All contracts are of an early period, 1827 - 1831, and are signed by Superintendents John Mitchell, John Phillips, and John Anderson, for the most part.

W2-h. 6. FRENCH CREEK DIVISION - Feeder and Franklin Line  
Contracts:  
Lock houses, roads, etc.
