

Canal; tow path sections, sections, road and farm bridges, locks, culverts, etc. It proposes the aqueducts for Thomson's and Mill creeks. It lists re-lettings of 1833.

W2-i. 12. NORTH BRANCH DIVISION - Contracts:  
Sections, Vol. 1

The seventy-one items of this volume apply properly to the North Branch Extension Canal and are dated from 1851 to 1853.

The items consist of Articles of Agreement on printed forms, with specifications accompanying them, for the construction of a canal prism forty feet wide at the top, twenty-eight feet wide at the bottom, and four feet deep and of the accessory features of each section: locks, aqueducts, culverts, etc., signed by Superintendent Aspenwall, Wm. Brindle, and Wm. B. Foster, Jr.

W2-i. 13. NORTH BRANCH DIVISION - Contracts:  
Sections, Vol. 2

The seventy-one items of this volume apply properly to the North Branch Extension Canal and are dated from 1850 to 1853.

The contents consist of Articles of Agreement on printed forms, with specifications accompanying, for construction of a canal prism forty feet wide at the top, twenty-eight feet wide at the bottom, and four feet deep and of the accessory features of each section: locks, aqueducts, culverts, etc., signed by Superintendents Edson Aspenwall, Wm. Brindle, and Wm. B. Foster, Jr.
