

R. R. Co., 23 June 1857 -

A detailed report on the condition of the canal works of the several divisions of the Pennsylvania Canal which the Pennsylvania Railroad is, at the time, contemplating purchasing from the state.

2. Thos. T. Wierman, chief engineer, Canal Department, Penna. R. R. Co., January, 1864 -

Annual Report for 1863 to the President and the Directors of the Pennsylvania Rail Road Company

3. Report, unsigned, of "A Committee, appointed at a meeting of Delegates from the several connecting lines of Canal, held in Philadelphia-"
8 August 1865

A report on the condition of each of the several canals along the two branches of the Susquehanna, the Susquehanna and Juniata rivers, and their connections with the Union, the Schuylkill, and the Susquehanna and Tidewater canals; on costs of advisable repairs and improvements on each; on tonnages of coal transported on each in comparison with tonnages carried by railroads from areas adjacent to each; in brief, an excellent picture of canal operations in Pennsylvania in 1865.
