Lawrence Park Civic Association Formed

The Lawrence Park Civic Association of Broomall was voted into being last week at the Charles H. Russell School when residents approved a constitution.

The needs of the community, which precipitated the organization of the group, were primarily those of improved transportation and street identification.

Charles W. Schaffer, chairman of the Traffic and Transportation Committee, said the bus company did not anticipate adding to their present service until they saw whether or not the next large increase of occupants would make a Lawrence Road bus financially feasible. According to Paul A. Gilmore, whose office is handling the sales of the Lawrence Park homes, the next large influx should occur during the first week in April.

The problem of identifying the streets is practically a thing of the past inasmuch as the signs have been received from the contractor and will be erected soon.
